management of his own allairs, and a native of the territory who knows the thing more than a few minutes of time to write way of legislation, and above all, is honest in the positions he may take on any the invalids' Hotel and

set in the positions he may take on any public maiters.

It cannot be denied that one of the principal industries of New Mexico is that of sheep raising and seiling the wool which is clipped from their backs. Mr. Ferea is a past master in his knowledge of the sheep businesse, and has a therough knowledge of wool and its classifications. Having that knowledge, he is flited to go before the committees of congress and thoroughly explain the manner in which any legislation will affect the flock masters of New Mexico die will not have to depend upon information furnished him by manufacturers, whose one object is to accure free wool at the appears of the American growers, is there a hawyer in the territory who its consistent of Flagstaff Chinamen and A contingent of Flagstaff Chinamen will soon sail for their native land. The native land the native land. The native land the nati

ling without looking at its upper jaw and counting the teeth affixed thereto; he knows what cattle are worth, what they should sell for in order to enable the raisers to live and pay their debts; he also knows that, like the sheep men, they must be protected from the competion of cattle raising in countries where lands for grazing purposes are not taxed and herders are paid so little that the expense as no bearing on the matter of

In regard to the mines of New Mexico. Mr. Perca, as a practical man, knows that the different ores have different values, and that some need protection while others do not. He is also well informed as to the protective legislation required by the products of the farms and or-chards and see protectionals will be all chards, and as a protectionist will do all in his power to secure tariff rates which will enable the New Mexico agricultur ists to place their products on the market on an equal facting with the products from Canada and other competing coun-tries in the United States markets.

from Cadada and other competing countries in the United States markets.

For some mouths past there have been threate made that the Fifty-sixth congress would devise legislation regarding the territories which would prove irkness would devise legislation regarding the territories which would prove irkness would devise legislation regarding the territories which would prove irkness are based upon pretty solid ground for apt reheasion by the people of the territory. Mr. Ferea may be depended upon to look after the interests of New Mexico and her people in that respect indefatigably. He is broad-minded enough to recognize that such legislation would work harm to the territory, and also shrewd enough to understand the best methods for defeating any unfriendly acts which may be contemplated.

The Cadada and other competing countries and the state of the interests of city, and is supplied with best and finest liquors.
